

SAHLINAMINA

Sahlins Mini-rod (\varnothing 3 mm) is a flexible, tough and strong fibreglass rod which in most difficult and tricky applications replaces the conventional nylon pulling rod.

This Mini-rod is now available with a patented cassette (SAHLINAMINA) with an adjustable handgrip underneath, an eye on the side for quick and easy winding and rewinding of the rod and a rubber pulling-pushing grip on top. Under the rubber pulling-pushing grip hides a convenient compartment for storage of accessories.

This patented cassette has even won the Intel Design Award for best design and most innovating product.

SAHLINAMINA is available with 10 m, 20 m or 30 m fibreglass rod, complete with M5 start and end joints, flexible start spinner with eyelet and pulling-pushing grip in the following versions:

- Standard version (includes accessories 1—8 & 10—12) (*)
- Economy version (includes accessories 1, 2, 3, 10 & 12) (*)

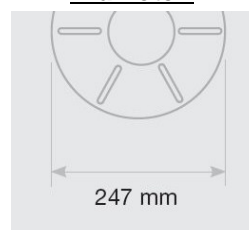

(*): See backside for overview of available accessories.

Packaging: Cardboard box (275 x 260 x 100 mm)
